

CREATING SURFACE PERFECTION

Firearm Surface Finishing

Deburring, Polishing, Ultrasonic Cleaning, Coating

ISO 9001:2015 Certified
FFL Licensed

Firearm Manufacturers and Component Manufacturers

Both major and niche firearms manufacturing companies choose ISO Finishing because we have developed and perfected specific finishing parameters and recipes to precisely fit each targeted application.

We handle projects of any size or complexity along with any number of metal and polymer alloys. Our facility can efficiently process prototypes to ongoing production runs in the thousands.

ISO Finishing is the experienced and ideal partner for firearm manufacturing and firearm component manufacturing companies. We simply produce the best surface finishes in the industry. To learn more information or for free sample processing, contact us at **1-844-623-7998**.

Components We Finish

- Aluminum Machined Uppers
- Barrels
- Carbon Alloy Frames
- Carriers
- Custom Casings and Munitions
- Firing Pins
- Optics Components
- Triggers
- Vented Ribs

Try ISO Finishing. Simple, Free!

Quality and Service are our primary focus. The best way to prove to you that our quality far exceeds that of others is to offer our services by processing your sample at no charge. Provide us with some basic information, and we will take care of the shipping.

Benefits to Pre-Plate for DLC

Surface preparation is extremely important with any thin film performance coating. Firearm coatings such as DLC reduce overall friction, provide corrosion resistance, and increase component longevity. At ISO Finishing, surface preparation is the most important step in creating a beautiful and functional finish.
