

## YOUR PREMIER SURFACE FINISHING PARTNER

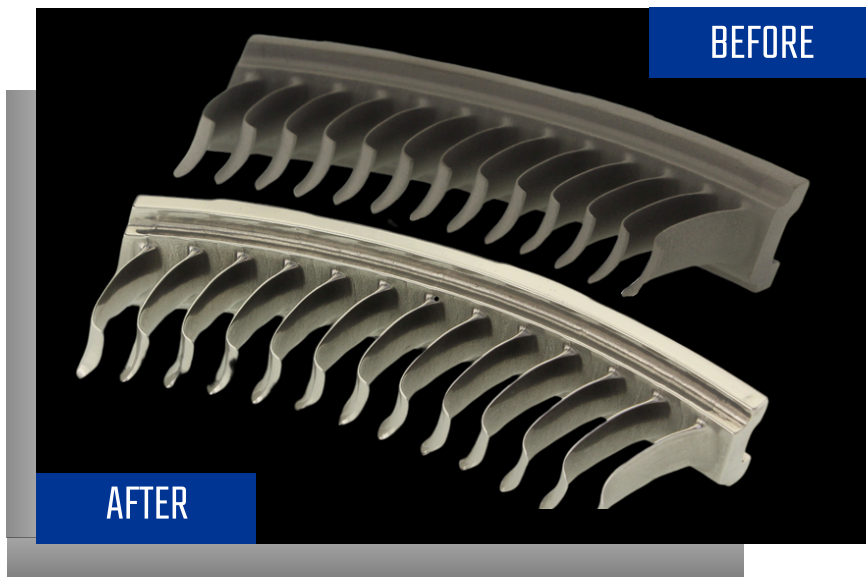

ISO Finishing is the premier isotropic mass finishing service provider. Working with you, we create consistent, repeatable and documented finishing solutions for components in any material. ISO 9001:2015 certified and FFL licensed, we specialize in:

- Deburring
- Descaling
- Process Engineering
- Deflashing
- Polishing
- Radiusing

We are suited to components as small as 3mm<sup>3</sup>, as large as 8" x 8" x 24" and anywhere in between. Our facility is capable of processing single prototypes or production runs in the thousands.

### BENEFITS

- Remove Unwanted Machining Burrs & Micro Imperfections
- Improved Part Durability & Strength
- Reduced Manufacturing Cycle Times
- Maximized Product Yield
- Uniform Surface Finish
- Compressive Stress Gains
- Preparation For Surface Coating

### TRY ISO FINISHING

Our free sample processing will show you first-hand how our finish will be your finish. Through collaboration with you, we will create a tailor-made solution. Using your feedback, we will adjust the process – not the standard. **LET'S GET IT FINISHED.**
